

Patient Encounter Summary

VISIT OVERVIEW

Date of Visit: April 30, 2026
Reason: Annual Wellness Check
Vitals: BP 120/80, HR 72, Temp 98.6F

CLINICAL NOTES

Patient presents for routine follow-up. General health is excellent. Noted slight elevation in fasting glucose levels; recommended dietary adjustments and a follow-up test in 3 months.

NEXT STEPS

- Complete the prescribed course of antibiotics.
- Schedule a follow-up metabolic panel for July 2026.
- Increase daily physical activity to 30 minutes.
